QR Code Link to This Post Looking for a licensed and insured electrician to install a 3 phase converter from 110V single phase for an industrial shredder. Converter details are below, we have the space on the current panel to run the line to the garage where the installation will take place. The distance is about 20 Ft long and 17 ft down to reach the garage.

Installation can be any time of the week, including after hours. Great for someone looking to make a little extra for the Holidays. If you are interested in the job and fit the requirements, send me your estimate and your credential including your license.
