QR Code Link to This Post I am a 18 year old rapper from Michigan trying to get my music heard.

I need someone that either does music videos as a hobby or pro.

OR

I need someone that has an hd camera that shoots in HD (1080p or 4K) and will help me shoot a music video.

I'm basically looking for someone with a cool personality to vibe with creatively and help me get multiple videos shot.

You don't have to be extremely professional, just know how to hold a camera.

Also if you can do some cool basic edit too that would be great!

Payment may not be immediate but will come as soon as my career pops off.

EMAIL: if you're interested or have any questions
