QR Code Link to This Post I am looking for a genius kid who can tutor my kids for ACT. They are a NHS students. I went through the tutoring route through local tutors and businesses for them. They are all very smart kids and I don't know why they can't seem to get 34-36 on their act scores. They all have 4.0 GPA in school. I am willing to pay someone for one on one tutoring to teach them how to ace this ACT test once and for all. I don't understand why they can't achieve this score when they get all A's at school. If you are a genius kid who can tutor my children one on one I am interested in hearing from you. Please text me at

thank!!
