QR Code Link to This Post Older male art model seeking female partner for life modeling for art groups, most of which are in South Jersey and Phila. Individual portrait modeling is also a possibility, once you on the list of models for a particular group.

I have been working with a female partner for quite a while, but she has been having some health issues lately, and may not be available for life modeling for quite a while.

This has nothing at all to do with sex! I have a lady friend, remember? Do not waste my time with any responses of that sort!!!!

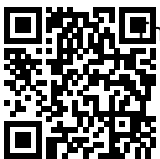

This is for art modeling only; nothing else! Many times, art groups like to use a male & a female model together, so there are occasional opportunities that I have had to pass on. Also, it could lead to additional work for you where a female model only, is requested.

Prefer a woman middle-aged or so; HWP; comfortable with nudity in front of small groups of artists, art schools. colleges, and comfortable being in tasteful, discreet, artistic, poses with a male. Must be able to hold poses from anywhere from 2 minutes to 20 minutes.

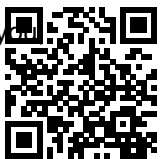

The pay varies from these different types of facilities- and it would be split evenly, of course.

This is not something that one can take up as a sole means of support, but it can be an occasional nice part time thing that can supplement an income, is challenging, rewarding, and always different. All of the groups that I've modeled for are respectful, professional, friendly, and courteous.

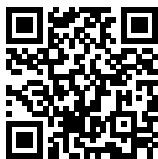

If interested, feel free to respond.
