All pictures are my work not others or pulled off the internet. I take the extra time to do the job right from start to finish including all the prep work others don't for a long lasting job. No slum lords or house flippers unless you want more than getting out as cheap as you can by using illegals or fly by nighters to slap together a quick mediocre looks good enough to sell the home job.

I also do most anything else home related hence the name Carolina Carpentry.

Thank.
