QR Code Link to This Post If you don't know what Bitcoin is you should learn. It's a digital currency that is rapidly replacing the need for cash.

I am a Silicon Valley investment banker that will show you how to safely invest in cryptocurrency ("Bitcoin"). Minimum investment: \$101,000. You do not pay me anything. I earn money from the success of the club after you open your account. This is a passive investment that earns a minimum 0.25% rate compound daily - credited to club members accounts. Your money can be withdrawn after 120 days or reinvested with the club for the next 120 day period.

If you have money in bank CD's, savings accounts, an ETF or 401K - your return is very low. Why not invest your funds with mine to capture a more attractive ROI? Our company started two years ago and has a \$631 million market capitalization. We only invest in Bitcoin and are experts at what we do. You should have access to a computer and be able to log into your account daily; or if you prefer - we will manage your account for you - and send a predetermined interest payment to your bank each month.

I am an honest investment banker with a stellar background. If you prefer to meet in person, I would be happy to have a cup of coffee with you and your wife or husband to explain your Bitcoin investment in simple - easy to understand terms - but you must verify you have the minimum \$101,000 liquid investment before we schedule a meeting. We are limiting membership to 7 people or couples.

Acceptance into our exclusive club requires:

1. \$101,000 or more Bitcoin investment.
2. A pleasant personality that I believe will be complimentary to club members.

Club benefits include:

1. Attractive passive income stream with minimum 0.25% rate compound daily paid monthly.
2. Quarterly networking events and dinner.
3. Limited access to corporate jets after initial 30 day milestone is achieved.
4. Annual shopping spree for wives. Next location: beautiful Shenzhen, China!!
5. Direct access to me to help manage and grow your investment in cryptocurrency.

Cheers,

Bitcoin
