QR Code Link to This Post My girlfriend(21) and I(23) are looking to rent a room out through December/January. We are staying out here until February, then going back to Oregon. Willing to pay up to \$600 a month if room is furnished, can pay for both months up front.

We are both clean and well kept, tend to keep to ourselves, but also very social if the vibes are right. We rarely argue, but know how to keep it between us if we do. We are very adaptable, and would be willing to work some type of deal for a place to stay for the next couple months, cash or work trade? Would like to hear any ideas.

Keeping this post short and sweet, but am willing to answer any questions.
