QR Code Link to This Post I am an experienced DFW real estate investor that also teaches real estate investing nationally . I am looking for more deals in Grand Prairie, Irving, other surrounding Metro-plex areas for my own portfolio and to resell and seeking help in finding those deals.

I am looking for a few people who want to learn the real estate business (how to find deals) and get paid for finding the deals either as a bird dog (getting basic property information and I follow up and buy it) or as a wholesaler (someone who actually goes out and gets the property under contract and then sells the deal or their rights in the deal).

If you really want to earn while you learn, this is your chance. I run one of the local real estate investor groups , plus I can give you access to a bundle of training materials that I have as well.

You would be doing this as an independent contractor (not as an employee). You'd be paid based on the deals you get.

My direct number is .

There is an opportunity to make a great income in this business... if you are willing to do the work. If you really are interested in the position, please contact me.

Sincerely,

Looking for Bird Dogs to Find Deals
