Apicella Law & Mediation provides mediation services for all family law issues.

Mediation is a much better way to manage your divorce, compared to battling things out in court.

- You maintain control of the process.
- You jointly decide how to resolve your case, rather than have a judge (who may not fully understand, or care about the issues involved) decide your personal life matters.
- Mediation is confidential, so your personal issues don't get aired in court and become a matter of public record.
- Mediation saves thousands \$\$\$\$ in attorney fees, which gets wasted via litigation.

As part of the process, we draft your settlement agreement and file all papers so you never have to visit the courthouse.

Serving all of Sonoma and Marin Counties, with offices in Petaluma and San Rafael.
