QR Code Link to This Post What I have for sale is a GSM factory unlocked HTC 10 that's in rough condition. Not gonna lie it's seen better days, and it'd be a \$20-30 fix on Amazon for parts for camera lenses and SD tray (e.g., lost in a move, and broke on a fall). As for a phone it runs great and as smooth as the Google pixel as it's yesteryears 2nd top flagship. Willing to trade or let it go for best offer. Comes as is without charger or box lost those along time ago, but fully charged thanks to my.
