

# Great White Pine Logs

Location **California**  
<https://www.genclassifieds.com/x-745966-z>

QR Code Link to This Post These clean logs come from a deconstructed cabin in the Fowler Creek area of Sonoma. We have some samples at our Fairfax yard (mainly between 10-12ft). Most of these (around 40) are located on-site in Sonoma and need to be picked up there. In Sonoma there are some as short as 7 feet and some as long as 32 feet.

We are asking just \$1/linear foot. Lower prices negotiable with bulk purchases. Just ask!

Many varieties of lumber are on sale now for 50% off. Hurry in for best selection.

We are The Away Station, a local 501c3 social profit corporation working to reclaim building materials for reuse to save them from landfills. We work with contractors, developers and homeowners to deconstruct rather than demolish these useful materials and make them available to you at significant savings versus buying new. Save some cash while doing good for our planet.

The Away Station

109 Broadway, Fairfax, CA 94930. Located at the rear of the yard at Fairfax Lumber.
