QR Code Link to This Post Are you sitting at home broke and needing some extra money in your PayPal?

If so, then this is the job for you! You just sit back and let our reps do the work and we will pay you \$400.00.

What exactly do we want in return? In return, we ask that you let us lease the ad's section of your social media account.

The whole process takes our admin about 15-20 minutes to set up, and we don't even need your password.

After we create our page, and then add our ADs manager account, you will be able to continue using your Fbook as normal.

You will need to have a home computer and internet connection. This will not work on a tablet or mobile phone.
