QR Code Link to This Post We are a web development firm and do web development and design based off Palm Beach.

Front end / back end web and development
 I work with JavaScript, AngularJS and related frameworks.
 HTML5 and CSS in full functionality and color.
 Polyfills and working with outpaced technologies such as old Web Browsers and legacy systems.
 UI/UX, working with interface design and aesthetic.
 JQuery.
 PHP.
 XAMP server.
 GitHub and code version control.

Responsive Web design, working in many devices from ancient CRT displays to Tablet screens.
 Web app optimization, so your pages do not get stuck and slow down like giant Google's empire YouTube or FaceBook.
 Multimedia, working with HTML5 video and audio components
 SEO across Google and other search engines.
 And of course, ClippyJS.

We also specialize in VR applications using the Unity game engine.
 We do 3D modeling of environments from scratch with 3DS Max.
