QR Code Link to This Post Hi.

I have 3 German shepherd puppies (13weeks old). I would prefer to re home them together, but will also accept if they are not. I am asking a rehoming fee\$, they will come with their cages, toys, food bowls, and food. They need a yard where they can run around. I have become too busy for them. They are crate trained. If they do not go into a home together, they will need to be the only dogs in the home unless alot of attention is given if you have other pets, just to make sure they get along.
