Anyone taking care of more than 2 children not related to them MUST be licensed by the Department of Human Services (DHS). PARENTS please think about the wellbeing of your children and take them to LICENSED Family Child Care. Licensed providers have to undergo Medical, Criminal, Employment checks, their facility is regularly inspected by DHS. Talk to your provider about getting licensed.

The PATCH Recruitment program is FREE and we offer potential child care providers training classes and one on one assistance through the licensing process.

Contact us for more information about becoming licensed and about our other programs such USDA Food Program and Preschool Open Doors. Visit the PATCH website at [www.PatchHawaii.org](http://www.PatchHawaii.org) or call Mimi at
