QR Code Link to This Post I've got a great idea for a romantic comedy. Since one of the leads is a woman, I'm looking for a woman to co-write this with me. I believe that a woman's point of view is definitely needed for this comedic movie. You'll know what I mean when you hear the plot idea!

I have no experience, but I've got a great idea and I've got Final Draft, which I'm learning to use. So if you know how to use Final Draft, you move to the top of the perfect collaborator list. This is a non-paying job! But if we click (not that kind of 'click'...[I'm happily married]), and we're successful with writing a blockbuster script, you will get a cut of the proceeds when we sell it. You need to live on Maui or staying for awhile because we're going to be writing and brainstorming...even verbalizing the dialogue for timing between each other...and anything else that we need to do write this thing. I'm envisioning going to the beach or the park with at least one laptop and getting this done while having some fun!!! No experience is necessary, but the creative will and energy to get this done is!

So, if this has peaked your interest, shoot me an email with 'million dollar selling screenplay' in the subject area AND tell me in a fairly short and concise paragraph why this vague idea of creating a successful selling screenplay appeals to you.

Aloha and be well,
