QR Code Link to This Post Looking for part time help making kick ass websites and doing office/admin work. Two days per week to start.

Applicants must be tech savvy and have a few basic skills. Specifically applicants should:

- Be familiar with resizing and working with images in photoshop.
- Have some level of experience with WordPress.
- Be hard working, and a quick learner to boot!
- Be available one to two days per week, approximately 3-4 hours each day.

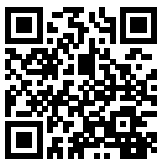

Pay is hourly, \$17-\$25/hour depending on experience. I am willing to train the right applicant and am not expecting a wiz. I have worked with other professional developers and although it is a pleasure to work with a pro, the hourly rate for someone who already considers themselves a developer is too high for me to pay. I am looking for an up-and-comer who has some experience but is excited for an opportunity to learn. On top of hourly compensation, the chosen applicant will receive valuable on the job training, and will grow into becoming a better website developer.

Ideally someone in Lahaina would be great, so that it is not a hassle to drive to the office twice a week.

Please read more about it here on my website: <https://dkdesignhawaii.com/web-development/web-development-position/>
