\$30 per hour

Forest Hill, MD 21050 I travel to my customers

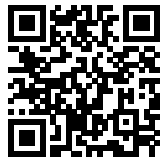

We do it all! I have been building for 40 years. I have just retired from the union and hired a few of my union buddies and we are now looking for some side work. We do drywall and finishing, paint, bathrooms, kitchens, flooring, tile, decks, and on and on. We do electrical and plumbing as well and I have a truck for material pick-up. We have plenty of references and pictures of our work. The best way to reach me is by phone, just call Winston Kourey at . I only accept cash, that way I can keep the price low. Testimonials "Having worked both for and with Winston, I can honestly say that there's no substitute for the experience he has.I am a house painter of 25 years and I've worked with and around many other people and he is one of the few that can do it all and do it well. A true craftsman and problem solver!!" - Joe "Winston did a truly fantastic job on the crown molding in our kitchen (which had a lot of cut ins) and family room. So great in fact that we had him come back and do the living room a month later. I got 4 bids and Winston's was the least expensive but it did not reflect in his work which was flawless. You can't see a seam anywhere. He was professional, showed up at the agreed time, courteous, and cleaned up after the job was done. I was always able to reach him when I needed him. I highly recommend him and will absolutely use him again. I am thrilled I found him! " -
