QR Code Link to This Post Price reduced several times!

This is the back glass (only) that goes on the pinball machine (not the complete machine).

It is in good condition. You can add it to your own pinball machine as a replacement, or frame it and use as a piece of art. Or make a really cool table top, or...

Pick up only. I can't ship, as it is too heavy, bulky, and could break.

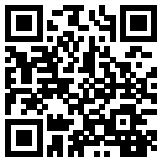

Note: I also have other SMDM items to sell, if you are interested.

[Note that I paid \$150 for this 20 years ago, so not the greatest investment for me, but a good one for!]
