QR Code Link to This Post I need to find a home for one of my dogs. He's being picked on by my bigger German Shepard and Boxer mix and it is causing problems in our house. He is not neutered. He will be one in February. He's great with kids and other dogs because he's submissive to them. He's great with cats and birds as well. He does like to dig if he's left to himself in the yard, but give him a sand pit and he's a happy boy. He's potty trained but definitely benefits from being put in a crate when he is home alone. He's a big dog with a bunch of growing to do. His mother was a mastiff lab and his dad is unknown, thinking some kind of hound. He's a wonderful dog, I just don't have enough time to deal with three big dogs. He's the omega of my pack and I feel bad for him because the other two pick on him. He is \$30 to a new home. I would prefer he have kids to play with as he LOVES kids. Please be available for pick up because I won't hold him. I did that twice and people backed out at the last minute. He's a very good dog. We are available for pick up from 9:00 a.m. to 2:30 p.m. this week. Text any time.
