MUST HAVE PAYPAL ACCOUNT!!
MUST HAVE PAYPAL ACCOUNT!!

Blank credit cards that can be used with PayPal. I make cards with your name once purchased, the card fee is \$100.00 can only be use by ONE PERSON ONLY and linked to one PayPal account, you have 48 hours to transfer the money from PayPal to your bank account or somebody else's PayPal after 48 hours if you still have money in there it will raise a red flag and your account will be locked, so it's basically should be in and out. Buy stuff or whatever just make sure it's not in your account after 48 hours also if you try to load more then 55k card link will decline, better to stay in 50K range. You will need a way to get funds out PayPal account before purchasing the card link. After money is in account, I get 10 percent of the amount you add. You do not have to do the full amount of 55k take what you need and know you will be able to transfer out of your PayPal before 48 hours. After 48 hours PayPal will lock account and you have to wait up to 21 days before they allow access to account. If you afraid of linking card then do not contact me with a million questions.

Serious inquiries only! Do not contact if you are not ready to do business must have the \$100.00 card link fee upfront to have card!!
