QR Code Link to This Post Hopkin's Back 40 Miniature Australian Shepherds (on Facebook) still has 4 amazing pups available. They will be ready for new homes December 14th! This litter can either be registered as Mini Aussie through ASDR or as Mini Americans through AKC. This will be our last litter offered as ASDR as we have been making the conversion to AKC over the last couple years.

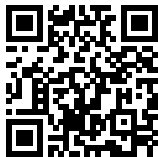

Pups will mature to about 15 inches and 25 lbs. This cross has produced several show stopping offspring with incredible confirmation. All of our dogs have full access to our home, and enjoy lazy days while retaining enough drive to work when we need them too. The breed is incredibly versatile. We also spend a great deal of time preparing our pups for new lives. They are pad trained and beginning to master outside, and all pups are socialized with other dogs, cats, livestock, children, etc. Health guaranteed! Cleared by parentage of genetic disease.
