QR Code Link to This Post A Beautiful 12 weeks old male cavapoo. Completely vetted, including neutur and microchip. Fun, high energy pup needs someone willing to work with him. He will dig up your yard and eventually out if you just throw him outside. He is an INSIDE dog. No accidents as long as you let him out in a timely manner. Goes into kennel when you leave and at night. Adores bathes and lets you blow dry him. I will be very picky as to where he goes. If I had enough time to work with him I wouldn't be finding a new home. I really believe he would benefit with someone with someone who has experience with high energy dogs and someone with children as he loves to play with them. He's not free so there is a small re-homing.
