QR Code Link to This Post You could honestly fib- you don't have to be an electrical engineer- engineers have just been the only people I know that really know their way around a computer. I just need someone far smarter than myself to unfu*k my computer and answer some questions or 1000(like really annoying questions) along the way. I know your degree(or in process degree-hey I am a future Dentist- but they don't make certificates for that -do they?) was worth wayyyyy more than CL work but sheesh we're both here aren't we? I know teeth you know my computer name your reasonable price and we're in business. I will even let you tack on a dollar per annoying basic question- we'll keep a tally, it will be fun.

PS- not a creep -didn't want 'fun' to sound 'fuuuunn'. Feel me? Please don't feel me. I'll.
