QR Code Link to This Post Is a good pickup just has rust around fenders am not quite sure what's going on with the motor it has a stalling hesitation. Before it started acting up it was driving really good. I am pretty sure it is the fuel pump or a bad sensor runs and drives good while cold! Am looking for cash offers but am open to trades. Has new plugs and wires, fuel filter, about 400 miles on oil change, 20" rims on 275/55/20 tires it Has headers. I don't really want to get rid of it but not much time to work on.
