QR Code Link to This Post This cabin was all hand-built, hand-sawed and hammered by an old order Amish family using wood from local trees cut at a local lumber yard. No power tools were used. Built extra strong to last. Extra nails and boards.

This is a 14Wx32L cabin. It has a 6Wx32L of a porch that will be installed when the cabin is shipped to the property location, with cedar railing and post that was cut by hand on the amish farm. There are 754 sqft of living area. The first floor has a bedroom, a bathroom, kitchen, dining room, and living room. The 2 lofts has a platform connecting the lofts across the cabin that will be finished with cedar railing. The inside doors are made from 1x4 inch weathered wood and hand-built like old barn style doors. It will have windows in the lofts and all around the cabin to bring the inside in.

The cabin style is rustic, we bought very old windows, door, sinks, sink counter tops etc. We can install them if you want them. The walls are open and can be finished. Can also have it plumbed and electrical ran. The siding is real wood planks. The roof is all new material which is hunter green and comes with a warranty. I just posted a picture I found on Google to show what it kinda is going to look like after completed.

This handmade Amish cabin is being sold for \$25K OBO as is. \$29.5K built out. You can reach me at . If you want to build your own cabin, please do not hesitate to reach out; we customize requests based on each family's wants and needs. Also may trade.
