QR Code Link to This Post Are you looking for a place your child will get the individual attention they need and deserve? In my family child care, I will provide a "home-like" setting for your child which is one of the best alternatives there is for working parents. It provides the small secure environment for children during the most important time of their development. I offer a home away from home, providing children with friends of all ages, to play, socialize, and learn from.

Some days are active and full of busy learning activities, and some days, children need to rest and have some extra TLC if they are feeling under the weather. I offer plenty of free play where children are able to expand and learn social skills along with arts and crafts, letter and number recognition, and music appreciation.

Hours open are 6:30 am - 5:00 pm - Monday thru Friday Cost - \$30.00 per day any age

Accepting children of all ages. Special needs children are always welcome!

If you have questions or would be interested in interviewing me, please feel free to email me with the subject "daycare" in the subject line to weed out spam. Best of luck to your family in your search care for you little ones!
