QR Code Link to This Post My band is currently looking for an additional musician that is in sync with what we do! We are a pop/indie/rock (idk) band that have been working in and out of Richmond for many years. We are in our early twenties and very dedicated to what we do, and need someone with pretty open availability. VCU students would be fine as we plan to be part time in the spring (no long out of town tours unless something sweet happenes).

Guitarist needs to be confident playing in front of people with the ability to nail them harmonies! If you suck at singing still reply at we can talk yolo. Keys are a plus... Bass is a plus.

New member will be asked to pay a small amount a month for rent at a practice studio. aka a small amount of whatever money you make with us.

If any of this feels like something you may fit in with, reply and we can talk and hey maybe even play some music and listen to we we?!
