QR Code Link to This Post With a sad and heavy heart I am having to re-home my almost 1 on Christmas male Great Pyrenees. No he's not papered or any of that fancy stuff he is pure bread, I do believe a farm/ranch/anywhere with lots of open space would be best, must have lots of room to run and play as well as be fenced in(we been trying to work on it but he is a runner). He is potty trained as well as kennel trained. He is up to date on shots but is not fixed. I will be picky about who he goes to! he is great with children of all ages and is a big ol giant sweet heart, he does bark alot as it's in his breed and still has puppy manner's;) Please do your research on this breed before contacting me. I am asking a rehoming fee of \$300 to insure he goes to a good loving home that will take great care of him:)
