QR Code Link to This Post Due to unforeseen circumstances, we are moving into a rental that does not allow pets. I have a very loving, affectionate, and sweet female cat named Harley. She is a Maine Coon with beautiful long fur. Harley is about 3 years old, I adopted her from the animal shelter when she was one. She has all her shots and she is spayed. She is very easy going, and well behaved. I have never had any problems with her. She has lived with me and my children and has never showed any signs of aggression or anger. Harley is very lovable and tolerant (however if the kids get a little too rough - like mine have before - she runs away and hides).

I am looking for someone to provide a loving home for Harley, and can continue to give her the care and affection she has always been given. If you think you are that special someone, please contact me and we can discuss pricing.

Thank!
