QR Code Link to This Post Brand new in box never used scuba primary and secondary regulator.

## Description

The latest regulator innovation from SCUBAPRO is the patent-pending Extended Thermal Insulating System (XTIS), ushering in a new era of cold water protection for the industry. XTIS fully insulates the inner mechanical components for extra protection. With it, the cold-water protection rating for MK25 EVO surges another 30 percent. Our top performing balanced piston first stage paired with our high performance air balanced second stage; this combination is SCUBAPRO's most popular regulator combination.

## Features

- New Extended Thermal Insulating System (XTIS), plus 30% resistance to freezing
- Air Flow at 200bar: >8500 l/min - 301 SCFM
- Balanced flow valve provides constant & effortless air flow.
- Air balanced flow-through piston

Externally adjustable intermediate pressure

\$650 OBO (Brand new price on Amazon is \$784)
