QR Code Link to This Post Do you have an older pair of your favorite speakers that you want to use again but the foam suspensions rings on the woofers have rotted away? Instead of leaving them in the garage or closet doing nothing, or paying to replace the entire woofers, bring them to me for repair. I will replace the rotted out rings with new ones and your speakers will come back to life again. I charge \$50 per pair which most times includes the materials. The photos shows a Boston Acoustics 8 inch woofer ring replacement I just completed. If you are interested in this service, e-mail me with the make and model of your speakers and we'll take it from there. Photos would be helpful also. Feel free to contact me with any.
