In my case, the springs appeared to be original to the house, which means they've been at work since 1956. Once you understand that long record of service, it becomes a little hard to complain when they finally break down.

\*/\*/\*\_Garage\_Door\_

And break down they did. It was a Sunday afternoon, and we were sitting around the quiet house reading. Suddenly, we heard a large noise that sounded like a very heavy object had fallen on the roof, or maybe a car had driven into the side of the house. I quickly started hunting around for the cause, and couldn't find a.
