QR Code Link to This Post Hi there. My names luis and I've been a pet groomer for about 7 years now. Always loved animals. I just recently quit my grooming job at a big company. I am now working with something different but still groom for my friends dogs here and there at home. Had this crazy idea of putting this ad. I am not one to post anything on CL or rarely any social media sites. Was wondering if anyone would be interested in trading some cryptocurrencies for dog grooming or walking service? Reply to this ad please if youre interested. Would love to talk more. Thanks
