QR Code Link to This Post Hi!

I'm Matt, a portrait photographer based in North Berkeley CA.

I operate a photo studio where the main purpose is to provide great pictures for young professionals for their LinkedIN accounts. A strong image is crucial to attracting customers and cultivating trust and friendship with potential clients and coworkers. A team with great images stands out among the competition. Over the last three years, I've helped lawyers, real estate agents, & therapists achieve stronger personality branding on their digital profiles and professional websites.

You can see my work here: www.highlandportraits.com

I'm looking to hire talented Sales Agents. He/she will make a 25% commission on final sales for everybody who he/she brings to the studio. My standard rate is \$175/session, so that equates to \$43.75 for each client. I also offer different rates for outdoor photoshoots and Sunday Specials, but you would always make direct 25% commission. My rates are all subject to change, with potentially increasing rates if the business manages to get more customers.

There is no required commitment, so you can work as much or as little as you want. You can even mine your own network, if you know people who would benefit from better profile pictures.

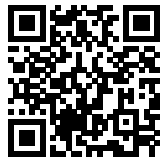

If this is something you are interested in, let's schedule a phone call and discuss the details!

-Matt.
