What is Valeet?

We are Valeet. The startup who developed the on-demand valet parking app at the airport. Let us put it in other words; you have a car, you have to fly, you love to drive, you hate parking. We just take parking out of the equation. How simple!

Valeet is considered one of the hottest startups in 2017. We have an incredible future ahead. We are currently operating in San Francisco and Oakland. We are looking forward to opening 2 more international cities before the year ends.
