QR Code Link to This Post I'm the single mother of four kids. I work at a jewelry store but cannot make ends meet, and Christmas is going to pass us by. I'm desperately seeking night and weekend work as a second job.

I can do almost anything. I'm very intelligent and have spent many years reading. I can do anything from cooking to medical waste disposal. If you have any leads or ideas please email me. I'm a hard worker!

Side note; please do not contact me for adult services. I won't do that.

Thank you so.
