QR Code Link to This Post I would like to tell you of my second journey of life after I was terminated for Hurting my self on job. All who know me; I went through HELL with Colton's steak house, with my claim and still trying after a year` to get help with social security. Back in 2009 I had no choice but to file chapter 13 due to medical, an operation that I had right bottom IBase has been added : the unique wood box made of walnut wood .a beautiful piece of craftsmanship. The items you can store in it are only limited to your imagination. Friend stated it would make a great makeup holder . At the end of the day : this is a one of a kind piece on this planet . Box dated from the 50s

If you like unique items , this is the piece for you . 20" x 18" - Height is 25"ung removed, and the cost destroyed my work and income, so I filed with at the time with` Holly and Martin attorneys in Rogers. After they moved into another building they now call it` martin attorneys.

For five years my bi-weekly payment for chapter 13 came out of my check (five years)

When it came to the end of my five-year in sept 2014 that's the same time I fell at work and have not been able to work at all.{atty} Michael chase contacted me by email and stated that my budget that he made five years ago did not balance out properly, and I would need to come up with another 5000.00 dollars even though it was his mistake. Being his mistake and I having No way to pay him more, he stated I could do another chapter 13 again which sounded "shady". Once again I reminded him I was trying to get disability and used all of my savings flying to hospitals trying to get my back repaired

So being held at hostage with no way out after doing my part of the agreement, {atty} Michael chase told judge that I did not pay all funds that were due so case got thrown out -- which means the five years I paid on my program and the 10s of thousands taken away from me are gone, where to ` no clue. Last Sunday a tow driver came to take my 10-year-old ford Taurus that a company in California bought the note from the car dealer. Company holding note on my car states I owe them 6800.00 if I want car back ' keep in mind this is a 2006 Taurus: blue book probably around 2500 . So now! No car. I filed a grievance on this atty with the Arkansas office of professional conduct. Now can I get everyone to believe that I am indeed the unluckiest man in the world? I'm very open honest if you have a question about my story . Politics at its
