This project is aimed for people who would want to join an upcoming Undertale dub group for YouTube!
The dubs will be different every time and, maybe, we might branch out from UnderTale.

Sans is a pun loving, lazy, powerful skeleton. He has a brother who he cares for very much,
is also aware of resets and previous runs. He never puts effort in anything but he does try to impress people with his pun skills.
His voice is pretty deep in most comic dubs, that would be appreciated!
