QR Code Link to This Post Republican Senators passed a rushed, partially hand-written tax bill that delivers \$1.5 trillion to the 1% - and we're going to pay for it. Trump calls it "a big beautiful Christmas present." That's exactly what it is for Republican donors, corporations and the rich.

The rest of us are getting coal.

This is how Trump does business. Load up debt, grab as much cash as possible, and leave before the party ends. He will be out of office and billions richer while the economy crashes and burns.

This tax scam is going to break the American economy. The massive tax cuts for corporations and the 1% will be permanent. Small tax cuts for the rest of us will be temporary. By 2027, 87 million working-class and middle-class families will get a tax hike.

The cruelty is staggering. 13 million people will lose health insurance. Medicare, Medicaid, and other health care programs will be slashed by more than \$1.5 trillion. All to cover the cost of tax breaks for people like Pfizer's CEO Ian Read (who raked in \$17.3 million last year). The bill will add a \$1.5 trillion to the deficit and weigh down the economy with massive interest payments and jeopardize critical services.

This bill will benefit the rich over the rest of us.

A Kiss to the Donor Class & The Finger To The Middle
