QR Code Link to This Post Hey fellow singer/songwriters my name is William Thomas Anderson ([www.williamthomasanderson.com](http://www.williamthomasanderson.com)) and I've been a singer/songwriter since the late 80s and have had the privilege of working in many different capacities with many different artists including many national acts over the years and I've noticed a pretty serious gap in the modern world for us singer/songwriters so I've taken several steps to help fix that, one of which is by starting a new youtube channel for folks like us called Singer Songwriter TV. I'm looking for artists with high quality videos that I can host on the channel and with said content I will be marketing the channel and draw viewers and industry people to check our work out SO if you have a video you'd like to share with the world check out the channel and send me a reply and I'll get back to you as soon as humanly possible...

There channel's link is... <https://www.youtube.com/channel/UC-lxU05YnTXY5IzVDLp-gkA>
