QR Code Link to This Post Hey there,

We're a guitarist/singer and bassist/keyboardist looking for a *very good* drummer. Our band is called Hoquinal, big influences include Radiohead, Aphex Twin, New Order/Joy Division, and Slint.

Here's a SoundCloud link with old recordings of some of our songs, just to give you an idea of our sound:

<https://soundcloud.com/hoquinal>

These tracks don't really capture our overall output...many of our songs would fit into very different categories. The recordings also feature our old drummer. He moved away, so we're starting from fresh! Although we would encourage you to write your own parts over these songs, we do hope that you come well-rehearsed on a few of these songs if we meet up.

No jams. Serious inquiries only please! :)

-Carter and Joey
