QR Code Link to This Post -Print right from your smartphone with Samsung Mobile Print app.

- NFC-enabled to connect wirelessly to your mobile device
- Prints crisp black-and-white text and images at 29 pages per minute
- Reduces toner, paper, and energy use with convenient Eco button.
- Duplex printing allows you to easily print on both sides of the paper

You can check this printer out online to get all the information you want about it. Amazon.com has not only the information, but also ratings from users and a good Q & A section.

Generally, it can be used in a network via ethernet connection or wi-fi. It also has a USB connection (cable included). The networking includes setting it up in Google Cloud Print.

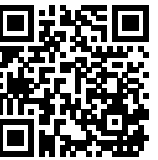

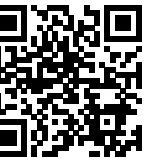

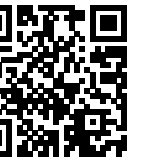

It also says you can print directly from smart devices (Iphone and Android) but I know nothing about that as I only use computers (both Windows and Chrome). Sounds good though

Drivers are available at the Samsung website as needed

I used this printer VERY LITTLE in my network. It still has over 90% of the original cartridge capacity, which I believe is not just starter capacity.

JUST LIKE NEW.
