QR Code Link to This Post Need to coat over a crack in the flashing @ the base of the chimney. Want to use brushable " Through the Roof" product, which I have; stuff is about as thick as syrup.The Karnak there has failed. Crack is a couple of feet long.

Not looking for a guarantee .....just do it for me my way, and I'll take my chances.

Roof is 30 feet high, and 12/12 pitch. It can be accessed from an adjacent shallow sloped roof, or from the front using a long extension ladder ,etc. your call here.

Am serious, not a dreamer .Will pay cash for you and for a helper. Use your equipment. Can send pictures. If you are also serious, I'll pay for your gas/etc to get over and take a look ( so you do not get stiffed with a " free estimate " but no job. ) Dad always taught me that cash talks, everything else walks .

Email works best for now.....hearing over a phone is not good. Name is Bill.

Lets talk, before the snow and ice gets here.

e mail is best for now, as my hearing is not good.
