QR Code Link to This Post I have 5 snakes looking for new homes.
3 corn snakes, 1 ball python, and 1 common boa.

They were taken in from different situations.

Female, adult around 5 years old, amel corn snake. Eats f/t mice. Never misses a meal. Very aggressive, will bite. She has not bitten me outside of the tank but I'm very careful with her.

Male, adult around 4 years old, Carolina corn snake. Never bitten. I can only get him to eat f/t day old chicks. He won't eat right after being handled, or after tank cleaning. Was kept in a 10 gallon tank without heat with rotting food. Not sure if that is part of the reason he won't eat live or f/t mice.

Unsexed, adult?, corn snake. I'm unsure of morph. I was told he's 3 but he seems small. Good eater, sometimes doesn't eat in blue. Eating f/t fuzzies.

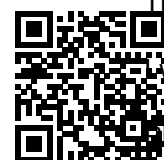

Unsexed, unknown age, normal ball python. Friendly, doesn't mind being held. Hasn't tried to bite. Good eater. Feeding on f/t rats.

Unsexed, unknown age, common boa. Was dropped off at my last job (pet store) with no info with the ball python. Doesn't mind being held. Will strike when she's hungry. Eating f/t rats.

I want their new homes to know as much as possible about their quirks.

They dont have tanks to go with them. Re homing fee of \$25 for the corn snakes and the ball python. \$50 fee for the boa.

would like to be aggressive and would like to go to a pet store to be kept.
Please email me with questions. Thank you by email.
