QR Code Link to This Post i have a 6 year old american bulldog pitbull mix. he really is a great dog.he is potty trained.

there is one problem and the reason he needs a new home.he is very aggressive toward children. he growled and tried to bite my 1 year old grandson,no my grandchild did not do anything to aggravate the dog. my husband was holding our grandchild at the time he growled and tried to bite him. He will need a home with no children and with someone very experienced with dogs that have prey drive.i feel really bad that he has to be in a muzzle & on a leash when he is not in the kennel, but i cannot risk him biting anyone. he will come with his kennel,food and water bowls,muzzle and leash.he gets along with our little taco dog.he dose not like cats at all. i will need to see ware he will be living and will need to meet all people living in the home before i will let him go as i need to make sure he is going to a good home. so if you think you can give him a good home please contact me. SERIOUS PEOPLE ONLY!! THIS DOG WILL ONLY GO TO A HOME THAT HAS EXPERIENCE WITH AGGRESSIVE DOGS!! NO.
