QR Code Link to This Post I am a local miller - I am always looking for wood to mill - most often hardwood (not pine or oak), such as, Walnut, Cherry, Elm, etc. Logs need to be at least 6' long in length, and a minimum of 20" diameter at smallest part.

I can 1) pay by the trailer load (6-ton), or 2) give a slab or two out of a log, or 3) mill some other wood for you for cribbing or whatever you need. Will make a drive for the right wood. If this is something you would be interested in please Text or Email me for quickest response. If you are old school and want to talk on the phone, leave me a voicemail and I will call back when I get a minute.

If you know someone who has a tree company, or cuts trees often, please pass this ad along to them!

Thanks!!!
