QR Code Link to This Post No explanation of the growing homeless population and our inability to help them.

I'm just a poor individual wanting to help. And I have these MacBooks...

With your contribution of \$80 or more, I will give you or your child this older 13" macbook in perfect working condition, with appleworks or Microsoft installed. Batteries are dead and gone, but the adaptor charger works perfectly also.

As I write this, I had just come in from the cold outside world where they are laid out on cement concrete blocks like unwanted vagrant things. An Amazing, Magical, Miracle Lady has granted me these macbooks to help my cause. They are not for sale. But they can be gift to you or your child. Any child. Any one.

Now, it's your turn:

You have already read this far; will you help, or will you too, also turn your back?

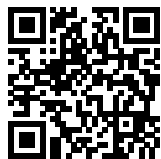

Meet at Zippy's King St or Honolulu Walmart.

Please leave your name, number, the amount you would like to donate, and the date and times you'd like to meet, in town.

Thank you for caring for another's wounded.
