QR Code Link to This Post This little guy is very friendly, and I'm sure his family is looking for him. He had a collar with a City & County tag on it but no name or contact info. I found him on a sidewalk on Kualii Street. He came to me when I called him, and he is safe and fed. If this little guy belongs to you, please contact me at and provide some evidence that he is yours, like a picture you have of him or the license number on his City & County.
