QR Code Link to This Post Established local death/Grindcore/hardcore band with a taste for brutality looking for a experienced drummer.

Must have:

The ability to play fast and accurate, live some where within Wayne county, Reliable transportation, steady job with mildly flexible schedule, reliable in general (no bullshit), your own equipment, the availability to play out a few times a month and practice once a week.

This band has been playing out for almost 5 years now with around 300 shows under our belt.

We have a hard hitting live show that keeps expanding and a fan base that keeps gaining momentum. We have played with dozens of national acts and plan to keep doing so.

We have a full length album we have been riding on for a few years but we are currently in the process of writing a EP and another full length scheduled for release mid summer.

We also have plans to tour in the not so distant future.

If you have what it takes. Set up a audition by contacting us at the email below. Due to privacy issues, the band name will be disclosed at a later time.
